<b>Office Action Summary</b>	Application No. 10/080,028	Applicant(s) KIM, SUNG-JIN	
	Examiner Michael V. Meller	Art Unit 1654	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's recognition of the election of water as the solvent is noted. It is also noted that applicant cancelled claims to the other solvents.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 13-17 are rejected under 35 U.S.C. 102(b) as being anticipated by

JP 402258725.

The extract is described and extracted with water.

Applicant argues that the claimed extract does not perform the inherent functions but applicant is reminded that this is a product claim. The product has been found in the art and the inherent properties/functions of the claimed product are just that, inherent. This claim is drawn to a product **not** a method of using that product. Thus, the art does not have to teach the method of using the product only the product itself.

Claims 1, 13-17 are rejected under 35 U.S.C. 102(b) as being anticipated by CN 1200281 or JP 409249578.

The extract is described in the abstract.

See above comments. These references were not cited to show that they were extracted with water which is why claim 2 was not included in this rejection.

Claims 1, 2, 13-17 are rejected under 35 U.S.C. 102(e) as being anticipated by US 20010046524.

The extract is described and extracted with water.

See above comments.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the

Art Unit: 1654

subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 13-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over CN 1200281 or JP 409249578 (JP '578) taken with JP 402258725 (JP '725) or US 20010046524.

CN and JP '578 teach that the plant can be extracted with alcohol. JP '725 and US teach that it is known to one of ordinary skill in the art to extract the plant with water which is a common solvent for extracting plants. Thus, it would have been within the purview of the skilled artisan to extract the plant of CN with water since water is commonly used to extract plants.

See above comments. The motivation to extract with water comes from the secondary references which clearly teach that extraction with water is well known in the art. To use ~~one~~ solvent versus another solvent as common as water is routinely done in the art as shown by the secondary references.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael V. Meller whose telephone number is 571-272-0967. The examiner can normally be reached on Monday thru Thursday: 9:30am-6:00pm.
